

There are two ways to keep abreast of the 20,000 new English Language books that come out each year.

The old way: Read tens of thousands of listings and ads.

The new way: Use the unique Books-Coming-Into-Print Service from Bro-Dart's Stacey's Division.

Books-Coming-Into-Print is a computer-operated advance notification and acquisition program which allows your library to profile its needs in specific disciplines. It gives you notification, continuations, and automatic shipment of books on approval.

This is much more than an approval program.

Our Stacey's Division, the nation's leading academic bookseller, will classify and organize over 20,000 titles a year of interest to your library.

Then there's the matter of our computer and the Thesaurus we provide you with. By using our Thesaurus and your specifications you pin point the exact type of books you'll be interested in, regardless of how broad or narrow your areas of special interest or the academic level desired. By carefully profiling your needs, you'll be receiving books or information about only those publications that would be of special interest to your library. That's the advantage of dealing with a computer.

The Books-Coming-Into-Print Program will provide you with an advance notice card prior to publication for each title which fits your profile. If you, for any reason, don't want the book, all you have to do is return the computerized card. And we won't

send you the book. If, on publication, the book is not appropriate to your profile, you will receive a rejection notice with explanation. Of course, all shipments are "on approval."

Remember, you'll be dealing with one source for books from all publishers. The Books-Coming-Into-Print Program applies to all English language books, continuations, and monographs by commercial and non-commercial publishers. In the humanities. Or the sciences.

Then, since you'll be dealing with Bro-Dart, you'll have the option of getting your books with a full variety of supplemental cataloging and processing services.

Since you'll be given advance notice about each new book, the system is compatible with your present way of ordering monographs and continuations.

And what you'll have is an "on order" file which your library can use for ordering, reference, or cancellations.

Naturally, your library will receive competitive discounts. Rapid service. And accurate selections.

Much easier than reading all those ads and listings.

BOOKS FOR COLLEGE LIBRARIES

Selected Titles on Microfiche

Microcard Editions is pleased to announce an extended project whereby a large percentage of the books cited in *Books for College Libraries* will be made available on microfiche.

Books for College Libraries, published by the American Library Association in 1967, cites approximately 53,400 titles, and, as stated in the preface, is essentially "a list of monographs designed to support a college teaching program that depends heavily upon the library, and to supply the necessary materials for term papers and suggested and independent outside reading."

No standing or advance orders required: Unlike other multi-title projects, standing orders, or advance orders, are neither required nor are they being solicited. Groups of titles will be offered at intervals as they become available—a library can then either by or not buy each group depending on its needs and budget. Each group will consist of selected titles from a chapter in *Books for College Libraries*, therefore groups will be subject oriented rather than consisting of miscellaneous titles.

Lists of titles supplied in advance: Libraries will *not* be asked to purchase titles to be selected at some future time; a list of all the titles in a given group will be available at the time orders are solicited.

Titles actually available: Orders will not be solicited to any group until the titles have been filmed and are available for delivery.

First two groups now ready

Slide Storage Problem?

abodia slide cabinets

**For filing, storing, and editing
transparencies and negatives**

Built-in illumination makes each slide of a large collection readily accessible. Available for any size transparency in any type mounting, sizes to hold from 1,500 to 10,000 slides. The system is built upon a module of 100 2x2 transparencies to a rack. The viewer places the transparencies in a horizontal channel of the rack, where they rest snugly. To view the transparencies, the viewer moves a rack of 100 from its nest to the front of the plastic illuminated viewing screen. For museums and institutions having master sets of transparencies which are viewed by many people, the Abodia Visual Series features a clear plastic front of the cabinet so that the slides may be viewed but not touched. Racks may be moved by special knob from top of the cabinet. Write for descriptive folder and prices.

expressly designed to meet the needs of academic libraries

**This computer-based
new service directed by
professional librarians,
guarantees to bring
to the shelves of
academic libraries
all new relevant
books published
in English
that meet
their requirements.**

*The Baker & Taylor University and
College Library New-Book Service guarantees:*

■ **SCREENING** by highly skilled professional librarians of all new books published in English, in the United States and abroad, by University Presses as well as scholarly and trade publishers, to determine their suitability for the program.

■ **AUTOMATIC SHIPMENT** of all new books as they are published, based on the profile or standing order requirements (either by subject area or by publisher) of each subscribing academic library.

■ **COMPUTER-PRINTED LC CARDS** (headed or unheaded) on every title shipped, available at only 15¢ a set.

■ **FULL ON-APPROVAL RETURN PRIVILEGES** of any title not fitting a library's individual needs.

■ **GENEROUS DISCOUNTS** based upon each library's individual purchasing program.

■ **CONSTANT MAINTENANCE OF A HUGE INVENTORY OF BOOKS**—the program is backed by the largest stock of books published by University Presses, and scholarly and trade publishers, assuring the most complete, fastest shipment of replacement and back list titles available from any book wholesaler.

We at Baker & Taylor believe that our University & College Library New-Book Service is the most comprehensive plan of its kind ever devised for academic libraries, with speed of shipment unmatched by any other source.

Bro-Dart's new Sysdac Mark IIITM

And who knows? In some libraries, you may never need a computer with the new Sysdac working for you. Sysdac Mark III, for example:

- ☐ maintains complete borrower's record on book card without consuming it.
- ☐ resettable counter eliminates hand tallies
- ☐ eliminates retyping of book cards
- ☐ eliminates registration files
- ☐ eliminates date due cards
- ☐ speeds up book slipping
- ☐ has new quiet, velvet-smooth motor

It's available for book card filing in a Master Book Card File as a Tab-Out system or, for conventional date due book card filing, as Tab-In system.

Can be used with any book card including data processing cards. The only new form you'll need is the Sysdac plastic borrower's I.D. card.

And you know it's dependable. After

all, it's the successor to the Sysdac I and II that have been proven by school, public and college libraries for years.

The Sysdac Mark III may be purchased, rented, or a lease-buy arrangement can be made.

RMP*

One of the most ambitious data-gathering efforts of recent years has been the program of the U.S. Joint Publications Research Service (USJPRS) to provide government agencies with significant and otherwise unavailable material from foreign sources.

These sources include scholarly works, research papers and documents, articles from leading newspapers, magazines and journals, economic and industrial reports, conference proceedings, and commercial statistics.

The material, selected by both government and private research specialists, covers the full spectrum of the social and physical sciences, political affairs, economics, medicine, international relations, and all aspects of engineering and technology.

All of this material is available to non-governmental educational, research and industrial organizations. Its current volume amounts to approximately 1,000 pages of translations per working day—more than one quarter million pages a year.

Through RESEARCH AND MICROFILM PUBLICATIONS, CCM Information Corporation offers the only comprehensive indexing, microfilm and microfiche services to the entire output of USJPRS material. Issued monthly to subscribers, the RMP Bibliography-Indexes to Current USJPRS Translations is organized into four geographic areas: China-Asia, Eastern Europe, the Soviet Union, and International Developments, which covers Africa, Latin America and the Near East. Each area bibliography contains a detailed listing of the most recent JPRS translations relevant to that area. Corresponding microform of the translated documents is available for each area on a monthly basis. To provide complete access to JPRS translations, back issues of the Bibliography-Index and companion microform files are available for all four geographic areas.

RESEARCH AND MICROFILM PUBLICATIONS also publishes more than 750 full-length scholarly books translated by JPRS. Titles cover all the subjects included in the monthly translation service and are now available in Xerox copyflo format—either in paperback or hard cover. A catalogue listing all the book titles and organized by subject and by country can be obtained free from CCM Information Corporation. Write for your copy today.

Because you can't take a book out of the Newberry...

...we're bringing Newberry's great collections to you!

Great research libraries like Chicago's Newberry cannot allow their materials to be taken beyond their doors. And not everyone who needs the Newberry's collections can visit or spend the necessary hours there.

Realizing this, as well as feeling the demand for their materials, the Newberry began working with Bell & Howell's Micro Photo Division, putting certain rare and research collections into microform. The result: Micro Photo now offers scholars many of the Newberry's outstanding materials.

Collections of the Newberry on microfilm... one more way that we — as micropublishers

— realize our on-going goal: to acquire, organize and disseminate all significant information from qualified sources. Our commitment to scholars is total.

Studies in Bibliography

Volume XXIII

Edited by FREDSON BOWERS, and L. A. BEAURLINE, *University of Virginia*. 280 pp., illus., tables, charts, figures. 6 $\frac{1}{4}$ x 9 $\frac{3}{4}$. SBN 8139-0309-2. LC 49-3353. \$15.00
(*Bibliographical Society*)

This latest volume of the *Studies* includes twenty-four articles and a Check List of Bibliographical Scholarship for 1969. Topics range from the kind of spelling most appropriate for modern Shakespeare texts, to early printing techniques in England, and to problems faced by the descriptive bibliographer. All twenty-three volumes of the *Studies* are available from the Press.

Valentine Simmes

Printer to Drayton, Shakespeare, Chapman, Greene, Dekker, Middleton, Daniel, Jonson, Marlowe, Marston, Heywood, and Other Elizabethans

By W. CRAIG FERGUSON, *Assistant Professor in Queen's University at Kingston, Ontario*. 113 pp., illus. 6 $\frac{1}{2}$ x 10. SBN 8139-0303-3. LC 68-7225. \$7.50
(*Bibliographical Society*)

This comprehensive examination of the work of Valentine Simmes casts light on both Elizabethan printing practices in general and on the printing of some of the most important of Elizabethan books. The main part of the book is devoted to a consideration of Simmes's type-fonts, ornaments, and paper and to a discussion of miscellaneous bibliographical problems, such as layout, shared printing, authors and dedicatees, and the *Malcontent* quartos. The book concludes with a list of all works printed by Simmes.

English Prose Fiction, 1600-1700

A Chronological Checklist

Compiled by CHARLES C. MISH, *University of Maryland*. 110 pp. 6 x 9 $\frac{1}{2}$. SBN 8139-0304-1. LC 68-9322. \$5.00.
(*Bibliographical Society*)

This checklist is intended to include all works of English prose fiction published during the seventeenth century. Although based on Esdaile's *List of English Tales and Prose Romances*, it contains a number of titles and editions not in Esdaile and drops certain doubtful titles. Thus, Professor Mish's checklist stands with McBurney's *Check List of English Prose Fiction 1700-1739* and Block's *The English Novel 1740-1850* as an indispensable part of the bibliographical record of prose fiction up to the mid-nineteenth century.

Poems

By NATHANIEL HAWTHORNE. Edited by RICHARD PECK, *Temple University*. x, 34 pp. 10 x 6 $\frac{1}{2}$. SBN 8139-0305-x. \$7.50
(*Bibliographical Society*)

This is the first edition of Hawthorne's poetry. The manuscripts, collected here for the first time from public and private collections, enlarge our view of Hawthorne as a writer and provide important bibliographical and biographical information.

Notebook

By STEPHEN CRANE. Edited by DONALD and ELLEN GREINER, *University of South Carolina*. xxi, 78 pp. 8 $\frac{1}{2}$ x 5 $\frac{1}{2}$. SBN 8139-0306-8. \$7.50
(*Bibliographical Society*)

Students of American literature have long known of the probable existence of a Crane notebook, perhaps kept by the author during his New York sojourn in 1892-1894. For many years its location was unknown, and even after its discovery it was not carefully edited and published. The Notebook has revealed two additions to the Crane canon, and it gives evidence of Crane's methods of composition showing how he advanced from notes to revision and then to sketches in final form.

University Press of Virginia

Charlottesville

1609. First printing. 500 copies. 1970. Second printing. One copy.

We don't know exactly how many copies of this book were originally published 361 years ago. But we do know that over the years it's become more and more difficult for scholars to get their hands on one.

Fortunately, University Microfilms is making sure that the supply of any book is precisely equal to the demand for it. And if just one copy of a book exists, and is capable of being microfilmed, we can make as many additional copies as anyone wants.

As of this moment, we have over 82,000 out-of-print books on microfilm. And if we don't have a book, we'll find it, film it, and turn out copies like the one above.

Books printed in Roman alphabets cost 4¢ per page. Books in non-Roman alphabets cost 6¢ a page. And our minimum order is one copy.

If you're a librarian interested in seeing which books we already have on film, send for our free 500-page catalog. We'll also send you *The O-P Bookfinder*, our monthly publication which lists the books we're adding to our collection.

If you still can't find what you want, send us the title, author and publisher's name.

If copies of the book are still around, we'll see to it that you get one too.

Gale's LC-NUC Cumulation Rated "Excellent," "Time-Saving," "Essential"

"Format attractive, layout good, easy to handle and use. The work seems well edited and accurate. Saves a great deal of time."—*William A. Fitzgerald, Director, Memorial Library, Marquette University Libraries.*

"It has been worth every cent. It helps us avoid accumulating a backlog of work, saves waiting for LC cards, and lets us get books on the shelves faster."—*Edith French Waterman, Chairman Library Department, The Golda S. Payne Library, Montgomery College.*

"Excellent. We use it for author verification, catalogue information, and as a great bibliography."—*Terence W. Cassidy, Assistant Librarian, University of Texas Medical Branch Library.*

"Very useful, well done. Very useful in our current project of conversion to LC classification."—*Phillip J. Moloso III, Library Technical Services Director, Maricopa County Junior College District, Phoenix, Arizona.*

"Time-saving. Also, due to the arrangement of the entries, they are much easier to find."—*Frances P. Means, Catalog Department, University of Arizona Main Library.*

"Extremely useful and fills a need not presently covered by other works."—*Alfred L. Freund, Plainedge (N.Y.) Public Library.*

"Ultimately, I think, it will reduce all search time by about at least one-third. On this basis alone it is a worthwhile investment for any large or medium-sized academic or research library."—*Elliott S. M. Gatner, Associate Director of Libraries, Long Island University.*

"Our impression is very favorable . . . excellent page format looks less cluttered than the originals. Thank you for straightening out various inconsistencies in headings, etc."—*C. K. Davis, Technical Services Head, Clark County Library District, Las Vegas, Nevada.*
